## WHAT IS BEANSTACK?

We are using a new resource to track and record the Summer Reading Program. Beanstack is a website and mobile app that allows you to log your whole family's reading and rewards you for meeting your reading goals! Sign up for the Summer Reading Program or any other Challenge that is in your age range, keep track of the badges earned for reading, and compete with friends on your leaderboard to see who ranks the highest. When meeting certain goals, Beanstack notifies you when it's time to visit the Library for a prize.

## THIS YEARS THEME:
# READING IS GROOVY

## WHO CAN PARTICIPATE?

EVERYONE is eligible to participate in the summer reading program! Infants through adults can earn prizes for reading. This year, there are three different prize levels. For Prize Levels One and Two, children and teens will have the option to choose a book or a prize out of the prize bin. For the Level Three prize, the finisher prize, they will get a SRP shirt. Adults will choose a prize out of the prize bin for the first two prize levels, and for the third prize level, they can choose between a SRP shirt or tote bag.

## TRACKING YOUR READING:

Instead of reading 20 books, the goal is to read 900 minutes throughout the summer. If you read just 20 minutes a day starting May 24th, you'll complete the challenge before the end of SRP on July 29th.

## SRP KICKOFF:

Lebanon Public Library's 2023 Summer Reading Program begins on Wednesday, May 24th, with a kickoff celebration starting at 4pm in the Library Park Pavilion. There will be games and activities, free Kona Ice for everyone, and fun giveaways while supplies last. Best of all, Cool Critters Outreach will be there with their "Not Your Average Petting Zoo"! You'll get to learn about their mission and interact with some cool critters as well!

## RAFFLE & GRAND PRIZES:

After completing the summer reading program, everyone will automatically be entered in a drawing for the grand prizes, as well as receive an online ticket through Beanstack that they can put into a virtual drawing for smaller raffle prizes donated by local Lebanon businesses.
